

CORRECT CHOICE OF CONSUMABLES FOR METLAM DISPENSERS

The key to finding the correct products to put in your Metlam dispensers is knowing the width and depth of your product and MAXIMIZING the internal space available. NOTE: If the paper is too narrow it may fall out of the dispenser in clumps or if the soap is too thick/thin it may block the pump/leak through the valve!

METLAM DISPENSER GUIDELINES

As Metlam do not sell consumable products the products listed below reflect the most popular range of consumables in the market. They are listed to be used as a guide only to show the appropriate dimensions of the paper products required. There are also many products equivalent in dimensions to the below that can be successfully utilized in Metlam paper towel dispensers.

Please note the below advice is listed to be used as a guide only, Metlam recommend that any consumable is trialled prior to being purchased to ensure suitability as manufacturers of products may change dimensions without notification to Metlam.
